CONFERENCE - Presentation of the results of the European project

"Psychological Health Impact of THB for sexual exploitation on female victims. Consequences for stakeholders." (PHIT)

Trafficking in Human Beings (THB) for sexual exploitation is a serious violation of human rights and a clear form of violence against women. Victimization processes associated with Trafficking in Human Beings have serious consequences on these women's life and health (physical, sexual and psychological health), and it is necessary to study these consequences in order to find an adequate approach to allow the recovery of THB survivors.

This conference is organized as part of project PHIT and aims to share the knowledge gathered throughout this two-year research, and to deepen this knowledge and explore possibilities for improvement in stakeholders' interventions and interactions with survivors.

Various experts will participate to this event:
- Representative of the United Nations Office on Drugs and Crime (UNODC)
- Markus González Beilfuss, Alba Alfageme, Miguel Angel Soria, University of Barcelona
- Conny Rijken and Leyla Khadraoui, INTERVICT University of Tilburg
- NGOs specialized in THB victims support: APRAMP, Fier, Proyecto esperanza and Sicar
- Interior Department, Catalan Government
- Mar Ramos Gascon, Hospital Vall d'Hebron
- Teresa Rodríguez Montañés, University of Alcalá
